REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art of record fail to teach or suggest a method of performing a read operation in a MRAM comprising the steps of applying a first constant current (or first constant voltage) through a memory cell string, measuring (a first voltage (or first current) across the memory cell string, applying a second current across the MRAM, the second current is a write sense current, measuring a second voltage (or third current) across the memory cell string and determining whether the first voltage (or first current) differs from the second voltage (or third current) as claimed in claims 1 and 12; a memory cell string comprising a first memory cell and a second memory cell connected in series, a current source for applying a first current through the string, a circuit coupled to the memory cell string for detecting a change in a voltage across the memory cell string in response to the current source applying the constant current through the memory cell string and a second current being adapted across the first memory cell, the second current comprising a write sense current (claims 7 and 18).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Son Dinh whose telephone number is 571-272-1868. The examiner can normally be reached on 8am-5pm.
